2	There was quite a bit of confusion for all of us at the very start of the term. The instructors had already prepared their class syllabuses and I think they were informed after the fact that there would not be any actual teaching on the first day of class. I strongly disagree with this decision. We should have started with the instruction and class work immediately and I feel this will be a wasted day in the future. Students should be responsible to get the information that they need from the instructors on their own. I did not know how to use Populi when I enrolled in my first class but I emailed the instructor and made sure I knew what had to be done. I think this can still be accomplished without having to use an entire first day of class instruction and then have to play catch up during the term.	6/19/2016 11:51 PM

4	I understand that it is important to include writing assignments during the course of our college courses, however, including a writing assignment for an algebra class was not beneficial to this class. There are plenty of other classes and opportunities to test a students writing skills. Including it in every class when it really is not applicable to the course work should be reconsidered.	6/19/2016 11:51 PM
5	The instructor delivery methods	6/19/2016 7:22 AM
